Dear Representative or Senator \_\_\_\_\_,

Please support Senate Bill 1032 (Senator Mike Fasano, New Port Richey) and House Bill 609 (Representative Evan Jenne, Ft. Lauderdale).

My home is in a mobile home community in your district. If my park owner wants to sell the park, I will have to move. Please help us keep our homes and our lifestyle. When these bills pass, our HOA will let the park owner know that we are ready, willing, and able to purchase our park and if we meet any other offers, he will sell to us. This will be good for your constituents.

Please support these good bills.

Sincerely,

I live in a manufactured home community in my own home. Before the park owner sells my park to someone else so I have to move, I would like to be able to join with my neighbors to purchase the park. These bills require that we are ready and willing to buy the park and we will do that through our Home Owners Association.

Please help me keep my home and my Florida lifestyle.

Sincerely,

We need your help! Our manufactured home community is in your district and our HOA would like to be first in line to buy our park if it goes on the market. These bills require that we show the park owner that we are ready, willing, and able to purchase and if we match an offer, he would sell to us. I really don't want to ever have to move again!

Please help us keep our park open.

Sincerely,
